In order to charge the product in safe manner and stable conditions, please only select certified appropriate charger/adaptor for charging the product. (Do not charge the product at ambient temperature between 15°C-30°C and 40°C-50°C.) Do not expose to sunlight or flame into the device of the product after use. Please note that we don't take any responsibility for any wrong operation (eg. voltage higher than 5V) as this may result in power injury or loss of property and we cannot control the operating process during the time the user using the product. In extreme cases, abuse or misuse of lithium battery pack can lead to explosion, fire generation, the development or smoke development.	FCC STATEMENT 1. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference. (2) This device must accept any interference received, including interference that may cause undesired operation. 2. Changes to modifications not previously approved by the party responsible for compliance could void the user's authority to operate the equipment. NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates noise and can receive noise frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: -Reorient or relocate the receiving antenna. -Increase the separation between the equipment and receiver. -Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. -Consult the dealer or an experienced radio/TV technician for help. RF warning statement: The device has been evaluated to meet general RF exposure requirements. The device can be used in portable operation condition without restriction. FCC ID: 2AC969 EP-0692001 CLASS OF 0000 Manufactured by: ZEEVA Holdings, Inc. 101 Wilson Street, Suite 200 Pittsford, NY 14534 Made in China Keep all relevant information for future reference.
