RE: Alinco, Inc.

FCC ID: PH3DR-620T

After a review of the submitted information, I have a few comments on the above referenced Application.

- 1) The uploaded photograph is not clear enough. Please provide a close up photograph of the RF sections located underneath the shields.
- 2) If the device has been approved under a DoC authorization, the device should include a compliance information sheet that meets the following requirements:

COMPLIANCE INFORMATION (47CFR 2.1077)

If a product is tested and authorized under a Declaration of Conformity, a compliance information statement (all information located together on one single page or as a separate sheet) shall be supplied with the product at the time of marketing or importation, containing the following information:

- (1) Identification of the product, i.e. name and model number.
- (2) A statement similar to that contained in Section 15.19(a)(3) that the product complies with Part 15 of the regulations.
- (3) The identification, by name, address and telephone number, of the responsible party. The responsible party is defined as either the manufacturer, or if the equipment is imported, the importer. The responsible party for a Declaration of Conformity must be located within the United States.

Note: All this information was found in the users manual, but should be contained on a single page in the manual.
