RE: FCC Limited Modular Approval
FCC ID: WP5TWN4F15

To Whom It May Concern:

Please be advised that the manufacturer requests limited modular approval for the transmitter concerned as the module does not have a shielding can over its RF circuitry. It is for this reason that the manufacturer will apply for limited modular approval and have control over the installation of the module.

We will have full control of the installation of the module as it will only be installed by experienced employees, all products will have their own voltage regulation.

Thank you for your attention to this matter.

Yours faithfully
