Re: Declaration of Antenna Used
Digital Transmitter Model SH-FX50T FCC ID: ACJSEFX50
Digital Receiver Model SE-FX50R FCC ID: ACJSEFX50X

To Whom It May Concern:

The component type antenna used in the subject Digital Transmitter Model SH-FX50T and Digital Receiver Model SE-FX50R are soldered to the main PCB.

The antenna cannot be removed or replaced by the user without taking the whole unit apart, and removing the printed circuits boards from the housing. In the course of doing that, it will void the service warranty provided by manufacturer, and might damage the unit if not careful.

The component type antenna used is an omni-directional antenna, manufactured by Murata. The antenna carries the model number ANCW12CH45SAA117 which has a gain of 2 dBi.

Thank you for your attention to this matter.

Sincerely,

Richard Mullen
