Product Similarity Declaration

Product name: Wireless Pressure Sensor
Model name: 6XX1N-XX-X-XX(X is variable. For more details refer to model naming rule.)
FCC ID/ISED: 2A85PA6XX1N/29620-A6XX1N

We (Measurement Specialties (China), Ltd) hereby state that all the models are electrical identical including the same and hardware design (RF Chip, Hardware, Schematics), same mechanical structure and design (including product enclosure, materials, etc.,), the only difference is the model name and software.

Demonstrate the detail (descriptions and pictures) as to the difference list above.

Note:
1) Disabled Lora by software (software due to disable LoRa, not any RF parameter change. RF Chip, Hardware, Schematics still are the same)
2) The circuit design and layout between of all model numbers are the same.
3) The Region code depends on Communication code, e.g: if Communication code is "5", the region code should be "B"; if Communication code is "9", the region code can be "A" or "E"
4) For this application is only for Region code "A" or "B".
