RE: FCC ID: PD5DREB34WGV2_ATCB001632

Attention: Ellis Wu

I have a few comments on this Application. Please note that further comments may arise in response to answers provided to the questions below.

1. Please note that this device is more than sufficiently large to include the required FCC 2-condition statement on the product itself. Please provide a sample label showing where this 2-condition statement as required by 15.19 will be located on the product. Alternately, please explain how this device meets the exclusion as stated in 15.19(a)(5).
2. Please provide the proper WLAN block diagram meeting the requirements of 2.1033. Please note that 2.1033(a)(5) states that a block diagram must contain "the frequency of all oscillators in the device. The signal path and frequency shall be indicated at each block. The tuning range(s) and intermediate frequency(ies) shall be indicated at each block."

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information may result in application termination. Correspondence should be considered part of the permanent submission and may be viewed from the Internet after a Grant of Equipment Authorization is issued.

Please do not respond to this correspondence using the email reply button. In order for your response to be processed expeditiously, you must submit your documents through the AmericanTCB.com website. Also, please note that partial responses increase processing time and should not be submitted.

Any questions about the content of this correspondence should be directed to the sender.
