

Solder Board-Component View 13	 A photograph of a green printed circuit board (PCB) component, labeled '13', showing various electronic components including a large orange capacitor, a yellow connector, and several integrated circuits. The board is placed on a blue surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the board's width being approximately 40 mm and its height approximately 60 mm. The board has a green solder mask and visible copper pads.
Solder Board-Component View 14	 A photograph of a green printed circuit board (PCB) component, labeled '14', showing a large white rectangular component, possibly a heat sink or a large capacitor, mounted on the board. The board is placed on a blue surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the board's width being approximately 40 mm and its height approximately 60 mm. The board has a green solder mask and visible copper pads.
