

# Thundercomm Technology Co., Ltd.

**FCC ID: 2AOHHT95GNA**

**To the certification reviewer:**

We are hereby applying for full modular approval of the above-referenced FCC ID, based on compliance with all of the criteria as detailed below.

Sincerely,

QiYong Zhou  
Hardware Test Manager

**Part 15 Unlicensed Single Modular Transmitter Approval Justification per 15.212**

Requirement per 15.212	Yes	No*
(i) The radio elements of the modular transmitter must have their own RF shielding.	X	
(ii) The modular transmitter must have buffered modulation/data inputs (if such inputs are provided).	X	
(iii) The modular transmitter must have its own power supply regulation.	X	
(iv) The modular transmitter must comply with the antenna and transmission system requirements of §§ 15.203, 15.204(b) and 15.204(c).	X	
(v) The modular transmitter must be tested in a stand-alone configuration, i.e., the module must not be inside another device during testing for compliance with Part 15 parameters.	X	
(vi) The modular transmitter must be equipped with either a permanently affixed label or must be capable of electronically displaying its FCC identification number. If the FCC ID is not visible when the module is installed inside another device, then the outside of the device into which the module is installed must also display a label referring to the enclosed module.	X	
(vii) The modular transmitter must comply with any specific rules or operating requirements that ordinarily apply to a complete transmitter and the manufacturer must provide adequate instructions along with the module to explain any such requirements. A copy of these instructions must be included in the application for equipment authorization.	X	
(viii) The modular transmitter must comply with any applicable RF exposure requirements in its final configuration.	X	

\*Shall provide a detailed explanation if the answer is "No".
