## USAGE

### Charging the power bank

To charge the power bank, connect the battery via the Type-C USB cable (included) to your car or USB home charger. Charging time of the power bank varies between 6 to 7 hours.

- LED indicators will blink and illuminate to show battery power  
4 LED - 100% charged  
3 LED - 75% charged  
2 LED - 50% charged  
1 LED - 25% charged
- For optimum effectiveness make sure the power bank is fully charged before charging your device.

### Charging your device

#### 1. Wired Charging

Connect your device's charge and sync cable (not included) to the power bank's USB-A output to charge your device from the power bank.

#### 2. Wireless Charging

The wireless charger is designed to work with Qi Compatible wireless charging phones. Confirm that your phone is Qi compatible before charging.

For wireless charging, power the power bank on with its power button. Center your device on the wireless charging pad to initiate wireless charging. The red LED indicator will change to green during wireless charging.

**Note:** Very thick phone cases can obstruct wireless charging. For effective charging, it may be necessary to reposition the phone or remove the case.

## CAUTION:

To prevent damage to the phone or the charger:

- Remove metal cases or cases with any magnet/metal components, from phone before charging.
- Do not place metal objects on the charger during charging.

Qi wireless chargeable phones with metallic looking finishes will charge normally.

## TIPS AND PRECAUTIONS

Read all the instructions before using the product, and use the product as intended. Keep close supervision of this product if being used around children.

Do not expose to rain or moisture, and do not use near water such as swimming pools, hot tubs, or sinks.

Do not expose to heat sources, the sun, or leave in a hot vehicle. Do not dispose of in a fire.

Do not place metal items on the surface of the product.

Do not cover the product with paper or other materials. Use in a well-ventilated area when charging.

Wireless chargers generate heat when charging, and the charger may temporarily stop charging if it gets too hot.

Do not disassemble, modify, or try to use for a non-intended purpose, and do not use if damaged or modified. Never insert objects other than the specified cables into the product.

Do not place magnetic strip cards or similar magnetically sensitive items between the phone and the charger. Wireless charging uses magnetic induction that could damage these items.

Consider turning off your phone's vibrating notifications during charging, as vibrations may cause your phone to shift position on the charger and stop charging.

Multiple Qi devices cannot be charge at the same time.

Disconnect the USB cable once the product, or device, is fully charged.

Do not use abrasive cleaning solvents to clean the unit.

This product contains a non-replaceable rechargeable lithium-ion battery. When discarding, follow your local / state guidelines.

**WARNING:** Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warning: This product contains a chemical known to the State of California to cause cancer, and/or birth defects or other reproductive harm.

## ONE YEAR WARRANTY

Xtreme warrants its products for one year against defects in manufacturing under regular consumer use with original receipt of retail purchase.

We believe in our products and want to provide you with a replacement, if needed, but we have to know about the problem while the product is still under warranty. If you discover a defect covered by this warranty, please contact us about receiving a replacement. In order to use the products warranty the customer must provide proof of the retailer's receipt.

\*Any customers outside of the U.S. will be responsible for shipping and handling charges if a replacement is required that is not due to a manufacturing defect. If there is not a manufacturing defect, shipping and handling will be applied.

Xtreme's warranty is limited to our products only. Our warranty does not cover the replacement or repair cost of any third-party accessory, electronic device or personal property.

For instructions about how to obtain warranty service for your product, please contact Customer Service: [customerservice@xtremecables.com](mailto:customerservice@xtremecables.com)

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

**FCC Radiation Exposure Statement:**  
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
