Columbia, MD 21046

Date : April, 01, 2019

SUBJECT: FCC Application for (FCC ID : 2AFWN-SLG-CS101)

To Whom it may concern:

This is to request a Class II allow to a FCC ID : "2AFWN-SLG-CS101" model, the device is identical to the previously certified except for the changes as below for details.

1). This model is changed.

Before	After
Firmware : VER 5.0.1.6	Firmware : VER 5.0.3

* RF sub-layout and RF module no change.

2) The change model doesn't change for the RF module. but, the output changed after the software was changed.

So all tests were re-tested.

[Test Comparison DATA]

-Fundamental output(worst case)

Test Mode	Before (Reading)	After(Reading)
Low	84.69 dBuV/m(Result : Peak)	83.17 dBuV/m(Result : Peak)

This authorization is valid until further written notice from the applicant.
