Installation instructions 1. Remove the protective film on the bottom of the charger to achieve better charging and heat 2. Connect the power supply Connect the power supply and plug the Type-C charging cable into the charger's power supply interface.

When using a mobile phone with a built-in magnetic ring, align the magnetic end on the back of the charger with the magnetic ring to attach them together. When using a mobile phone without a magnetic ring, it is recommended to use an official mobile phone case built with the magnetic ring. Just align the magnetic end on the back of the charger with the magnetic ring to attach them together. 4. Observe whether the operation is normal
When the wireless charger is attached to the magnetic phone case or the wireless charging
coil of the phone is aligned, it will automatically detect the presence of the magnetic

connection, establish a wireless charging protocol communication, start power transmission, and activate the cooling system. If the indicator light flashes red, it means that the foreign object protection mechanism or other protection mechanisms have been triggered. Please check:

 a) whether there are metal foreign objects around the wireless charger,
 b) whether the OPPO official magnetic protective case is used,
 c) whether the charged device offers the wireless charging function, d) whether the fan stuck by objects.

Indicator light description Light off: The power is not connected, or the device is not connected.

White light on: Charging is in progress, or charging has been completed.

Flashing in red: An abnormality occurs, and the protection function is activated.

To avoid malfunction, do not place or use this product in high temperature, humid, dusty, strong electrostatic and strong magnetic environment.

2.Please do not place other items such as metal objects, metal protective cases, magnets, magnetic cards, etc. between the mobile device and this product. Otherwise, it may cause charging failure, or overheating and even damage of the mobile device, this product, and these items.

items.
3.To avoid magnetic failure, do not place magnetic cards with magnetic strips or chips, such as bank cards, ID cards, and transportation cards, near this product.
4.When charging the mobile device, do not block the air inlet and outlet.
5.When an abnormality occurs during wireless charging, the product will enter a protective state and the indicator light will flash in red. Remove the mobile device or disconnect it from the power supply, and then place the mobile device back after the abnormality is removed.

Safety information Before using and operating this product, read and follow the following precautions to ensure product performance and avoid dangerous or illegal practices. • In medical and healthcare facilities where the use of wireless devices is explicitly prohibited, do not use this product.

• The radio waves generated by this product may affect the normal operation of implantable medical devices or personal medical devices, such as pacemakers, cochlear implants, hearing aids, etc.lf you are using these medical devices, please consult their manufacturer for restrictions on using this product. If there are no restrictions, maintain a distance of at least 30 cm from the

medical devices when using this product.

To avoid electrical shock hazards or malfunction of this product, do not use this product in thunderstorms or expose it to high temperatures or around heating sources such as sunshine, heaters, microwave ovens, ovens, or water heaters.

• Please use this product within the temperature range of 0 to 35°C, and humidity range of 20% to 80%RH, and store it within the temperature range of -20°C to +55°C, and humidity range of -20% to 80%RH to available from the product of the store of the 20% to 80%RH to avoid malfunctions. • To avoid malfunctions or overheating of this product, do not place metal foreign objects on its Please use an adapter that matches the specifications of this product to connect to the power

supply, and ensure that the adapter is certified.

• Please use the original OPPO data cable or a data cable that complies with USB-IF specifications This product and its accessories contain small parts. Please keep this product and its accessories

out of the reach of children and pets. Children or pets may inadvertently damage this product and its accessories, or swallow small parts, leading to choking or other dangers. Do not drop, crush, or puncture this product as it may cause malfunctions.
 Please dispose of this product according to local regulations and do not treat it as household waste. Please comply with local laws and regulations regarding the disposal of this product and its accessories, and support recycling initiatives.

FCC Regulatory Conformance

FCC Statement
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undering deportion.

(2) This device must accept any interference received, including interference that may cause undesired operation.

NOTE: The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications or changes to this equipment. Such modifications or changes could void the user's authority to operate the equipment.

NOTE: This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiated radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of

Horizon the following measures:

-Reorient or relocate the receiving antenna.
-Increase the separation between the equipment and receiver.

-Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-Consult the dealer or an experienced radio/TV technician for help.
FCC Caution
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
The antenna(s) used for this transmitter must not be collocated or operate in conjunction with any other antenna or transmitter.

RF Exposure Information

This device meets the government's requirements for exposure to radio waves. This device is designed and manufactured not to exceed the emission limits for exposure to radio frequency (RF) energy set by the Federal Communications Commission of the U.S. Government.

This device was tested for typical near Body operations kept 0cm away, and this device complies with FCC radiation exposure limits set forth for an uncontrolled environment.

ISED Regulatory Conformance ISED Regulatory Conformance

ISED Statement:
This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

(1) This device must accept any interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.
This device complies with the Canadian ICES-003 Class B specifications.

CAN ICES-003(B)/ NMB-003(B).
This device complies with the RSS-216 of Canada.

CAN RSS-216 / CNR-216.

ISED RF Exposure Statement
This equipment complies with IC RSS-102 radiation exposure limits set forth for an uncontrolled environment.

EU Regulatory Conformance Waste Electrical and Electronic Equipment (WEEE)

This symbol (with or without a solid bar) means that according to local laws and regulations your product and/or its battery shall be disposed of separately from household waste. When this product reaches its end of life, user has the choice to give his product to a competent recycling organization. Proper recycling of your product will protect human health and the environment. If you are not sure what to do with e-waste, please contact your local authorities, retailer, or household waste disposal service.

Reduction of hazardous substances

This device and any electrical accessories are compliant with local applicable rules on the restriction of the use of certain hazardous substances in electrical and electronic equipment. For declarations of conformity about REACH, please visit our web site: https://service.oneplus.com/global/search/reach-regulation

RF exposure information

RF exposure assessment has been performed below to prove that this unit will not generate the harmful EM emission above the reference level as specified in EC Council Recommendation (1999/519/EC).

EU Declaration of Conformity (DOC) Hereby, OnePlus Technology (Shenzhen) Co., Ltd. declares that the Power Supply Unit(Model: OAWV08) is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU and 2011/65/EU. The full text of the EU declaration of conformity is available at the following internet address: https://service.oneplus.com/global/user-manual.

When using this device as a wireless charger it is intended for use as a desktop device and should not be carried when in this mode. To comply with RF exposure requirements when using in the

wireless charging mode please place the device at a minimum distance of 0mm from persons. WPT (111KHz~148.5KHz): -6.47 dBuA/m@10m

Limited Warranty

Limited Warranty

Dear user, thank you for using this product. In case of any damage that is not caused by human factors, we will provide comprehensive warranty services according to local laws and regulations. To protect your legal interests, please read the following notes carefully:

• A valid Proof of Purchase shall be issued by the seller at the time of purchase.

• Please keep your Warranty Card and Proof of Purchase for future reference.

• In case of any damage of the product that is not due to human factors, consumers are entitled to enjoy customer service free of charge by providing Warranty Card and Proof of Purchase within the warranty period.

The warranty is not applicable in the following cases:

1. The valid warranty period expires.

2. The product is damaged because it is accidentally dropped or immersed in water when in use.

3. Damages are caused by human factors such as unauthorized disassembly, modification, etc.

4. Damages are caused by improper usage that does not conform to the user guide or operation manual.

5. Damages are caused by usage in environments not conforming to product specifications.

7. Information on Warranty Card or Proof of Purchase is inconsistent with the product serial number or has been altered.
