

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1**

**EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a green, semi-circular printed circuit board (PCB) with various electronic components. A red wire is connected to a component on the left. The board is placed on a black surface with white millimeter and centimeter rulers for scale. The PCB has several circular mounting holes and visible solder joints.
Solder Board-Component View 2	 A photograph of the same green, semi-circular PCB from a different angle. A yellow circular component, possibly a battery or a large capacitor, is prominent in the center. The board is again placed on a black surface with white millimeter and centimeter rulers for scale. The components and solder joints are clearly visible.

Solder Board-Component View 3	 A photograph of a green, semi-circular printed circuit board (PCB) with various electronic components. A red electrolytic capacitor is prominent on the left. The board is marked with '13551H_Y1422-200925' and 'V8'. A small, rectangular component is shown separately to the right of the main board. The items are placed on a black surface with white millimeter rulers for scale.
Solder Board-Component View 4	 A photograph of a small, rectangular green PCB component, labeled 'V4', positioned on a black surface with white millimeter rulers for scale.

Solder Board-Component View 5	 A photograph showing a small green printed circuit board (PCB) component with four gold-colored solder pads. The component is placed on a black surface with a white ruler for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is oriented horizontally, with its longer side parallel to the 0-100 mm scale.
Antenna View	Wireless Charger Antenna  A photograph showing the back of a black, oval-shaped device, likely a wireless charger. The device is open, revealing a coiled copper wire antenna. A red box highlights the antenna, and a red line points from the label "Wireless Charger Antenna" to it. A black ruler with white markings is placed next to the device for scale. The ruler has markings in millimeters (0 to 100 mm) and centimeters (0 to 10 cm).
