Automatic pet feeder

(Supports 2.4GHz WiFi Only)

uHome+

Products will be upgraded from time to time (including APP), please refer to the actual product!

Safety Instructions

Dispose of all packaging materials properly. Some items may be packed in plastic bags; these bags could cause suffocation. Keep them away from children and pets.

Do not immerse the base part in water at any time as it may damage electronic components like the control panel.

Suggest following the instruction in this user manual to assemble or disassemble the feeder.

Only use accessories recommended or sold by the manufacturer. The use of accessories not recommended or sold by the manufacturer may cause an unsafe condition.

Examine the feeder after installation. Do not plug in if there is water on the power cable or plug.

This product uses built-in battery as a backup power supply. We recommend to use double power supply to ensure the normal use of the product.

If the product is not used for an extended period, please fully charge the battery to reduce the rate of natural discharge.

Do not put your fingers into the food outlet or let your fingers touch the rotor.

Keep the feeder close to your router, make sure the network signal is good, it is ideal to make it within 5 meters without obstacles and walls. (Depending on the coverage of the router you are using)

Please do not use wet, canned or moist food; only put dry food into the food tank prevent from abnormal conditions even may including pet safety problems.

Installation

STEP 1 Connecting Power

1

● Check the bottom of the device and plug in the USB cable.

2

● Turn on the power switch at the bottom of the feeder.

Note: Be sure to turn on the power switch before use. Please maintain dual power supply, batteries are for backup power only

STEP 2 Assemble or Disassemble

3

● When installing the food impeller: Please pay attention to the impeller direction.

4

● Pay attention to the direction of the impeller; the impeller should not be placed in the center.

STEP 3 Assembling the Food Tray

5

- First, install the fixing brackets from the bottom.

6

- Align the bulging of the bowl tray and the holes in the feeder base, and push up ward to connect the two. Pu on the stainless steel feeding bowl

7

The food tank can be installed only in Unlock Position

Lock ←

→ Unlock

- Slide the buckle to Unlock position, then insert the food tank into the feeder base, and then slide the buckle to the locked position.

STEP 4 Fill With Food

8

Note: It is recommended to use round or oval-shaped pet food, as long strips or irregular shapes such as polygons are prone to getting stuck.

- Pour in dry pet food. Put on the lid.

Description of Buttons and Indicators

Indicator Light Descriptions

Indicator	Status
 Blue light blinking	Waiting for connection.
 Blue light solid	Connection successful.
 Green light solid	Connection timed out.
 Red light blinking	Indicates low battery (when using battery power only).

Note: If the connection times out, press and hold the + button for about 10 seconds to reset the device to the blue blinking light state for reconnection.

Tutorial Video

■ You can scan the **Tutorial Video** QR code to watch how to connect.

Tutorial Video

Install the APP & Log In

■ App Installation

Download and install the "uHome+" App by scanning the QR code, or searching it on Google Play (Android)/ App Store (ios).

uHome+

■ Sign up and log in

After opening the app, if you don't have an account, please register one. If you have already have, please log in directly.

Connect to APP (only support 2.4GHz network, not 5GHz)

1. Open the APP homepage
- Add device

2. Add

3. Select 2.4G WiFi and enter a good password. Next step

4. Wait for connection

5. Connection
successfully

6. Click to finish

1

● Turn on the battery switch.

2

● Connect to the power supply.

3

● While charging:
The red light remains solid.

4

● When fully charged:
The green light stays solid.

Problem	Solution
Can't connect the feeder to WiFi	1) Keep the feeder and your phone close to your router, make sure the network signal is good.
	2) Restart the feeder.
	3) Follow the APP's instructions or our tutorial videos to add the feeder. There are more than one adding methods to choose from.
	4) Contact our after-sales team via email for help.
WiFi connection is sporadic	1) Keep the feeder close to your router, make sure the network signal is good, it is ideal to make it within 5 meters without obstacles and walls.(Depending on the coverage of the router you are using).
	2) Make sure the power cord is properly at this point.
	3) Reset the feeder and reconnect.
The indicators are off	1) Check whether the electricity is cut off.
	2) Check whether the indicator function is off on the App.
Why feed on the APP but no food dispensing from the feeder?	1) To check if the food tank got enough food.
	2) If the impellers have been rotated normally. (You can judge from the sound).
	3) Suggest to feed again for few more times to avoid the signal delay(Internet delay) cause for the troubles.

Problem	Solution
<p>Timed tasks are not executed correctly</p>	1) Make sure the feeder is not reset or powered off.
	2) Check if the feeder is offline, when normally connected, the feeder indicator is always on blue.
	3) Check whether the effective period of the timing task is set correctly.
	4) Check whether the time zone of the device is the same as your time zone. Online status, click -  Settings , check the time zone of the device.
	5) Reset the feeder and reconnect.
<p>The feeder has disappeared from the home page</p>	<p>1) Make sure the feeder is successfully networked, the indicator light should be blue.</p> <p>2) Make sure the feeder is not connected by someone else, it is recommended to reset the feeder and connect it.</p>

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
- This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
