

Wireless Charger

Model:MS104WXCD

User Guide

Thank you for purchasing and using this product!

Please read this Operation Instruction carefully and keep it properly before using this product.

Product Specification

- .Input:DC 12V/DC 1.5A
- .Output:5/7.5/10/15W
- .Working Distance:3mm
- .Chargin Efficiency:70%
- .Standard:Qi
- .Quality:Quality and meet CE/FCC/ROHS
- .Opation frequency:115.54kHz-175.48kHz .
- H-field:-7.2dBμA/m at 10m
- .Hardware:56021-01-RevA
- .Software:56021-01-RevA

Application Devices

Compatible with Peregrine
FCC ID: 2ARK8-MS104WXCD

connect the SR-4.2 2PIN terminal at the power cord end to the DC input interface of the smart desk, then the smart desk supply DC 12V power to the device, then the device starts to work.

Attention

1. Please keep the charger away from water or other liquid.
2. If you need to clean the charger, please make sure it is not connected power supply
3. Using Environment temperature remains -20~60°C

This equipment has been tested and found to comply with the limits for a MTC device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

Caution

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the product.

Note: This equipment has been tested and found to comply with the limits for a wireless power charger, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
