Re: FCC ID: ALH36033110

Applicant: Kenwood USA Corporation  
Correspondence Reference Number: 10429  
731 Confirmation Number: TC368346  
Date of Original Email: 12/04/2003

Subject: audit

1) MPE exhibit should reflect compliance distance for unaware bystanders, i.e., f/1500 not f/300 limit.

Response: Please refer to the revised exhibit uploaded.

2) Please revise grant note to include following or similar text: "All qualified end users of this device must receive training to have the knowledge to control their exposure conditions and/or duration to comply with Occupational /Controlled exposure limit and also have control of the exposure conditions of bystanders for complying with General Population/Uncontrolled exposure limit."

Response: The grant has been revised.

3) Per Suppl C sect. 2 RF exposure label should be prominent. Please describe how label position is expected to accomplish awareness of exposure in typical installation conditions.

Response: The label position has been changed; please refer to the revised label exhibit uploaded.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal pursuant to Section 2.917(c).

DO NOT Reply to this email by using the Reply button. In order for your response to be processed expeditiously, you must upload your response via the Internet at [www.fcc.gov](http://www.fcc.gov), E-Filing, OET TCB Electronic Filing, TCB Login. If the response is submitted through Add Attachments, a message which informs the processing staff that a new exhibit has been submitted must also be submitted via Submit Correspondence. Also, please note that partial responses increase processing time and should not be submitted. Any questions about the content of this correspondence should be Directed to the e-mail address listed below the name of the sender.

Subject: audit suppl

4) Appears that mounting bracket can install 0 or 180 deg - means has vertical holes at back; mounting bracket slots may allow up/down front/back adjustment such that label is covered or damaged and discarded - please comment.

Response: The label position has been changed; please refer to the revised label exhibit uploaded.

5) Bystander MPE distance needs to be considered for back seat passengers, in which case center trunk mount instructions may need revision - please comment/revise.

Response: Please refer to the revised manual uploaded.

6) Please consider to include following text or similar in user instructions: transmit only when people outside the vehicle are at least the recommended minimum lateral distance away the antenna/vehicle.

Response: The suggested text has been added to the manual; please refer to the revised manual uploaded.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of the original e-mail date may result in application dismissal pursuant to Section 2.917(c).
