

Solder Board-Component View 4	
Solder Board-Component View 5	

Solder Board-Component View 6	 A photograph of a small, rectangular electronic component with a black solder mask and numerous gold-colored solder points. The component is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component's length spanning approximately 20 mm. A thin black wire is attached to the right side of the component.
Solder Board-Component View 7	 A photograph of a circular electronic component with a prominent copper-colored ring. The component is mounted on a small black PCB and is placed on a blue textured surface next to a black ruler with white markings. The ruler indicates the component's diameter is approximately 20 mm.

Solder Board-Component View 8	 A photograph showing a small electronic component, likely a coil antenna, mounted on a blue textured surface. A black ruler with white markings is placed horizontally below the component, showing measurements in millimeters. The component has a circular base with a central silver-colored disc and a curved, metallic, hook-like structure extending from it.
Antenna View 1	Output 1 Coil Antenna  A photograph showing a circular antenna component with a copper-colored spiral coil. A black cable is attached to the left side of the component. A red rectangular box highlights the spiral coil, and a red line points from the text "Output 1 Coil Antenna" to this box. The component is resting on a blue textured surface.
