14.About this machine: Display the product model, serial number and other information.
15.Storage space: View storage space.
16.Storage path: Check the storage path.
17. Reset: Choose whether to reset system data.

Common   Problem
·Unable to scan recognition/low recognition rate
① Keep the pen and the paper at an angle of 70 to 90 degrees, the more vertical the scanning, the better the recognition effect;
② Make sure that the alignment line of the pen head is placed in the middle of the text, press down the pen head lightly, and move the pen to the right to scan at a constant speed after the light is on.
③ If the handwriting cannot be recognized, the printed text should be confirmed within the recognizable range:
Font size:2-6,
Fonts: Arial, bold, italics(both italics and bold), Language:Chinese, English,
④If the printing effect of printed text is poor, it will directly affect the recognition effect.

·How long does it take to charge?
How long will it last?
When charging, please use the standard professional charging cable of this product or the mobile phone Type-C charging cable. The charging time is 2 hours, and it can be used continuously for 3 hours after being fully charged. When the power is 100%, the standby time is 50 days when it is turned off.

·Garbled garbled screen when scanning special symbols such as"\/:*?"<>|"are not supported.

Waterproof   performance   statement:
This product does not have a waterproof design, please do not use it in splashing water or other environments that cause the product to enter water.

Charging and battery usage precautions
1.Please make sure that the charging interface is clean and free of dirt before charging.
2.When connecting the charging cable to the charging interface, make sure that the charging cable is connected correctly.Do not forcibly connect the charging cable.
3. This product is not equipped with a power adapter. If consumers use a power adapter for power supply, they should purchase a power adapter that has obtained CE or FCC certification and meets the standard requirements.
4.If the battery has abnormal phenomena such as high temperature, discoloration, deformation, bulging, and leakage during use, charging or storage, please stop using it to avoid safety problems.
5. When charging, because the temperature of the battery will rise, do not put it with flammable materials to avoid fire.
6.It is strictly forbidden to disassemble, backlog, heat or burn the built-in battery of this product, or use sharp objects, screwdrivers, etc. to puncture or pry the battery. The above operations will cause the battery to catch fire.
7. To reduce the risk of electric shock to children, please charge this product under the guidance of parents or other guardians.

Warn
Do not place the device in an environment where the temperature is too low or too high (below-10 ℃or above 50 ℃) for a long time. The extreme temperature environment will cause the device to deform and shorten the service life of the device; Do not use the device during thunderstorms; Please keep the device and all away from children and pets, which may cause suffocation or other serious consequences if swallowed;
Do not place the device in water.

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiateradio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
