# Magnetic Wireless Charger

## User's Manual

**Thank you for choosing BENFEI products!**

**Please read this user manual carefully before using.**

### **What's in the Box:**

1 x Magnetic Wireless Charger

1 x User Manual

### **Introduction**

This Magnetic Wireless Charge brings you an experience for the simplicity of magnetic wireless charging. With its robust design, universal compatibility, and advanced safety features, this charger is a smart way to power your world. Say goodbye to messy cables and hello to a streamlined, efficient charging experience. It has a built-in charging management chip with multiple protections such as overcurrent, overvoltage, overtemperature, short circuit, foreign objects, ensuring safe operation for you and your devices.

### **Specifications:**

Name	Magnetic Wireless Charger
Model	000401
Material	Silicone+ Aluminum alloy
Input	5V/3A,9V/2A,12V/1.67A (USB-A / USB-C)
Output	15W Max
Output for ISO devices	7.5W Max
Dimensions	59*7.0mm,Cable Length=1500mm

### **Notes**

1. This product is applicable to mobile phones with magnetic wireless charging functionality.
2. This product is suitable for original Apple cases featuring MagSafe. Using other cases may lead to compatibility issues.
3. Do not place magnetic objects like metal, magnetic - stripe cards (e.g., credit cards, public transport cards), SIM cards, etc., near the charging area of the wireless charger to avoid abnormal charging or product damage.
4. Keep it away from direct sunlight or high - temperature environments and also keep it away from heat-emitting devices such as space heaters and microwaves.
5. Do not strike or throw the product. Such improper behaviors can damage the internal circuit board.
6. Do not expose it to any liquids or operate it in humid environments.
7. Please use a 20W or higher wattage USB - C or USB - A power adapter.

## How to use

The illustration is only for your reference.

1. Connect the product to a power outlet.

2. Place your phone closely to snap on the product.

## **FCC Warning**

### **15.19 Labeling requirements.**

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

### **15.21 Information to user.**

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

### **15.105 Information to the user.**

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

### **FCC RF Radiation Exposure Statement:**

1. This Transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
2. This equipment complies with RF radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
