

# 3C022

ALUMINUM ALLOY 3-IN-1 MAGNETIC HOLDER &  
WIRELESS CHARGER (UPGRADE-FREE)

Instructions

## Product Introduction

This product is a magnetic holder and wireless charger with a built-in magnetic holder. It is designed to hold your smartphone or tablet in a secure position, allowing you to watch videos, play games, or use the device hands-free. The product is made of high-quality aluminum alloy, which is durable and lightweight. It is also compatible with most smartphones and tablets, making it a versatile accessory for your device.

It is recommended to use a power adapter of 20W and above.

## Specifications

Model	3C022 Aluminum alloy 3-in-1 Magnetic Holder & Wireless Charger (Upgrade-free)
Product	Wireless Charger
Material	Aluminum alloy
Technology	Qi/C
Power	15W/10W/5W
Output	12V/1.5A/2.0A
Net Weight	110g
Size	100x100x100mm

## Operation Steps

1. Turn on the power supply and connect the power supply to the device.
2. Place your smartphone or tablet on the wireless charging area. The device will automatically start charging. The charging speed will be affected by the device's battery level and the power supply's output.

## Cautions

1. Do not touch the product in water or wet conditions.
2. Do not disassemble or modify the product to avoid damage.
3. Do not clean the product with flammable or corrosive liquids, gas or other items.
4. Do not place the product near magnetic fields, magnetic objects or precision machines.

## FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

**Note:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. During the operation of device a distance of 15 cm surrounding the device and 20 cm above the top surface of the device must be respected.
