Columbia MD 21046

Subject: Default System Configuration

FCC ID: PLRFX501000

To Whom It May Concern:

The Arcwave ARCXtend MetroE system contains a third party 802.11 baseband processor and 802.11a/b/g radio. However, the overall system architecture will only ever support operation in the 5745-5850 MHz, 802.11a band. Therefore, Arcwave will lock the country code and frequency band to prevent unauthorized use in non-approved bands before the unit ships to the end user.

Best Regards

Danny Castellano
