

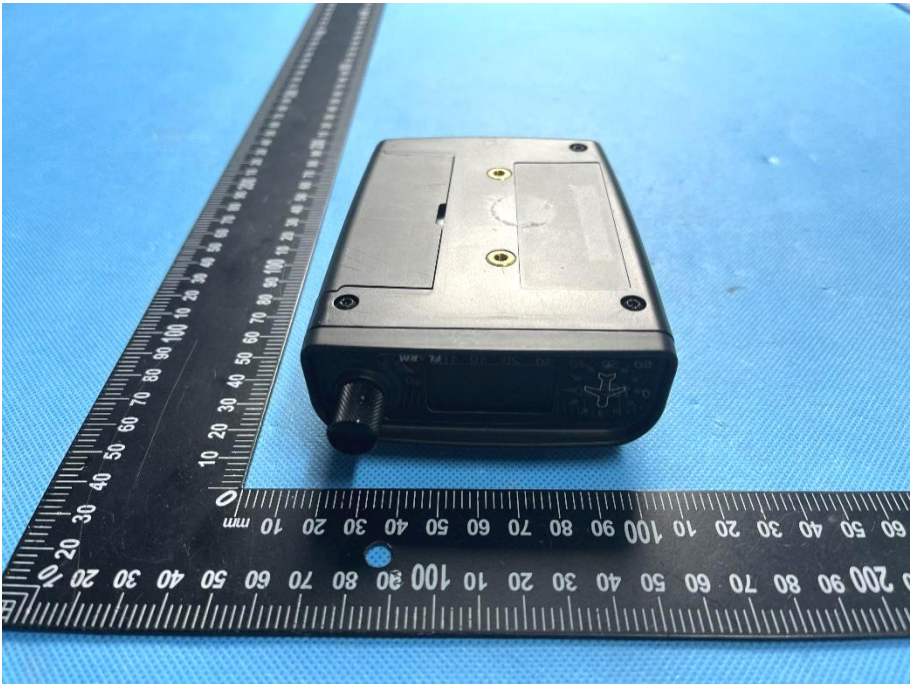

EXHIBIT 2 - EUT EXTERNAL PHOTOGRAPHS

EUT View 1	 A photograph showing a black, rectangular electronic device with a slightly recessed front panel. To its right is a black cable with a white connector at one end and a multi-pin connector at the other. A black ruler with white markings is placed vertically to the left of the device, showing measurements in centimeters and millimeters. The background is a light blue textured surface.
EUT View 2	 A photograph showing the same black electronic device from a slightly different angle, focusing more on its side profile. The multi-pin connector is visible at the bottom. A black ruler with white markings is placed vertically to the left of the device, showing measurements in centimeters and millimeters. The background is a light blue textured surface.

EUT View 3	 A black electronic device, likely a test probe or connector, is shown from a top-down perspective. It has a rectangular shape with rounded corners. Two gold-colored pins are visible on the top surface. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters and centimeters.
EUT View 4	 A black electronic device, similar to the one in View 3, is shown from a different angle. It has a rectangular shape with rounded corners. A circular feature is visible on the top surface, and a cross-shaped symbol is printed on the bottom surface. The device is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters and centimeters.
