1.2

Pair Your Remote Control to TV

This remote control uses both Bluetooth and IR (infrared) to send its commands to the TV

- You can use this remote control via IR (infrared) for most operations
- To use advanced operation like voice search and remote control keyboard, you need to pair (link) the TV with the remote control

When you start the initial TV installation, the TV invites you to long press the PAIR key, and by doing so, the pairing will be done

Note

- 1 - Once the remote control has entered pairing mode successfully, the blue LED indicator ring around the microphone on the front side of the remote control starts blinking
- 2 - The remote control must be kept close to the TV (within 1m distance) during pairing in order to ensure success
- 3 - If the TV does not launch the voice control field when press , pairing was unsuccessful
- 4 - It is advisable to wait until the set has fully started up and launched all background processes before pairing mode is entered as the toast message containing further instructions may appear too late, thereby negatively impacting the pairing procedure

Pairing or pairing again

If the pairing with the remote control was lost, you can pair the TV with the remote control again

You can simply long press the PAIR key (approximate for 3 seconds) for pairing

Alternatively, go  Settings > Wireless and networks > Remote control > Pair remote control, then follow the on-screen instructions

A message appears when the pairing is successful.

Remote Control Software

⚙ Settings > Wireless and networks
> Remote control > Remote control info

Once the remote control is paired, you can check the current remote control software version.

⚙ Settings > Wireless and networks
> Remote control > Update remote control software

Check available remote control software for updates.

1.3

Voice Search

You can search for videos, music or anything else on the Internet by simply using your voice. You can speak into the microphone on the remote control.

You need to pair the remote control to the TV before use voice search.

To use Voice:

- 1 - Press  on remote control, the blue light on the remote control lights up and the search field opens, the microphone is active.
- 2 - Speak out what you are looking for with clear pronunciation. You can speak for 10 seconds before the microphone switches off. It might take some time for the results to appear.
- 3 - In the list of search results, you can select the item you want.

1.4

IR Sensor

The TV can receive commands from a remote control that uses IR (infrared) to send

FCC Warning:

Please take attention that changes or modification not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation.

commands. If you use such a remote control, always make sure you point the remote control at the infrared sensor on the front of the TV.

⚠ Warning

Do not put any objects in front of IR sensor of the TV, it may block the IR signal.

1.5

Batteries

If the TV does not react on a key press on the remote control, the batteries might be empty.

To replace the batteries, open the battery compartment on the back-bottom of the remote control.

- 1 - Slide the battery door in the direction shown by the arrow.
- 2 - Replace the old batteries with 2 Alkaline, type AAA-LR03-1.5V batteries. Make sure the + and the - ends of the batteries line up correctly.
- 3 - Reposition the battery door and slide it back until it clicks.

Remove the batteries if you are not using the remote control for a long time. Safely dispose of your old batteries according to the end of use directions.

For more information, in **Help**, select **Keywords** and look up **End of use**.
