This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

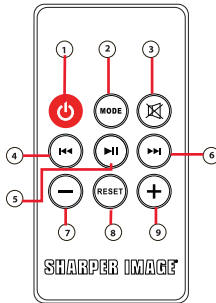

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

Using the Remote

Pairing the Speaker

1. Quick press the **[POWER]** button on the control panel or quick press the **[○]** on the remote to turn the sounds bar on. Use the **[MODE]** button on the speaker or remote to select Bluetooth mode. A tone will be heard and the Bluetooth indicator will quickly flash GREEN. The speaker is now in pairing mode.

2. Turn on your mobile device's Bluetooth function and make it discoverable. (Consult your mobile device's documentation to connect or setup a Bluetooth device).
3. In discoverable mode, your phone is searching for nearby Bluetooth devices. When your mobile device finds the speaker, select "SBT2014" from the list of discovered devices.

1. Connect one end of the optical audio cable (not included) to the **LINE IN 1** or **LINE IN 2** port on the left side of the speaker's control panel. The **LINE IN** LED indicator will illuminate BLUE for LINE IN 1. If there is a device connected to **LINE IN 2**, press the **[MODE]** button again on the speaker or the remote. The LED indicator will now turn RED.
2. Insert the other end of the 3.5mm auxiliary cable into the headphone port on your smartphone, tablet or MP3 player.
3. Open the media player on your mobile device and press "Play" to begin music playback.

NOTE: When a device is connected to the speaker's LINE IN jacks, you can use your device's media player to control the volume, repeat or skip music tracks. When disconnecting the auxiliary cable, use the **[MODE]** button to return to Bluetooth mode.

Some older mobile devices may ask for a password before connecting to a Bluetooth device. Type 0000 or 1234 and press YES or OK to pair the two units.

After a successful pairing, a tone will be heard and the LED indicator light will remain BLUE. When music is playing, the Bluetooth indicator light will flash GREEN slowly.

Use the **[○]** button on the remote to turn the speaker on. Quick pressing the **[MODE]** button until **OPTICAL** is selected.

 - Quick press the **[▶|▶]** button to skip to the next track in your playlist.

5. Quick press the **[▶|▶]** button on the speaker or remote to pause the music. Press the **[▶|▶]** button again to resume music playback.

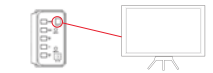

Using the Line-In Jacks

1. Connect one end of the 3.5mm auxiliary or the 3.5mm to RCA cable to the **LINE IN 1** or **LINE IN 2** port on the left side of the speaker's control panel. The **LINE IN** LED indicator will illuminate BLUE for LINE IN 1. If there is a device connected to **LINE IN 2**, press the **[MODE]** button again on the speaker or the remote. The LED indicator will now turn RED.
2. Insert the other end of the 3.5mm auxiliary cable into the headphone port on your smartphone, tablet or MP3 player.
3. Open the media player on your mobile device and press "Play" to begin music playback.

NOTE: When a device is connected to the speaker's LINE IN jacks, you can use your device's media player to control the volume, repeat or skip music tracks. When disconnecting the auxiliary cable, use the **[MODE]** button to return to Bluetooth mode.

Using an Audio Optical Cable

1. Connect one end of the optical audio cable (not included) to the **LINE IN 1** or **LINE IN 2** port on the left side of the speaker's control panel. The **LINE IN** LED indicator will illuminate BLUE for LINE IN 1. If there is a device connected to **LINE IN 2**, press the **[MODE]** button again on the speaker or the remote. The LED indicator will now turn RED.
2. Insert the other end of the optical cable to the **Optical/Digital Out** port on your TV or other external device.
