

Solder Board-Component View 6	 A photograph of a small, black, L-shaped solder board component. The component has several gold-colored solder points at its ends. It is placed on a blue textured surface next to a metal ruler for scale. The ruler shows markings from 1 to 17 mm.
Solder Board-Component View 7	 A photograph of the same solder board component from a different angle, showing its internal circuitry and various components like resistors and capacitors. It is placed on a blue textured surface next to a metal ruler for scale. The ruler shows markings from 2 to 18 mm.

EUT Housing and Board View 1	 A photograph showing the internal components of a device, including a circuit board with various electronic components and a metal housing. A ruler is placed vertically on the left side of the components for scale. The components are laid out on a blue surface.
EUT Housing and Board View 2	 A photograph showing the internal components of a device, including a circuit board with various electronic components and a metal housing. A ruler is placed vertically on the left side of the components for scale. The components are laid out on a blue surface.

Solder Board-Component View 1	 A photograph of a black printed circuit board (PCB) component, labeled 'View 1', resting on a blue textured surface. The board is rectangular with a semi-circular cutout on the left side. It is populated with various electronic components, including integrated circuits, resistors, and capacitors. Two metal rulers are placed horizontally above and below the board for scale. The top ruler shows centimeters from 1 to 9, and the bottom ruler shows millimeters from 1 to 17.
Solder Board-Component View 2	 A photograph of the same black PCB component, labeled 'View 2', showing the opposite side. This view reveals more components, including a large integrated circuit, several connectors, and a circular component on the right. The board has a semi-circular cutout on the right side. Two metal rulers are placed horizontally above and below the board for scale. The top ruler shows centimeters from 1 to 8, and the bottom ruler shows millimeters from 2 to 16.
