Using the Charging Pad

In the Box

- DPM10 Charging Pad (x1)
- Micro-USB Charging Cable (x1)
- User Manual (x1)

Powering the Charging Pad

Attach the small connector of the supplied micro-USB power cable to the micro-USB port on the charging pad. Attach the large connector to a **5V USB adapter** (not included) and plug into a wall socket.

The LED indicator will turn **RED** to indicate that the charging pad has power.

Using the Charging Pad

After plugging in the charging pad, place your device in the center of the charging pad. The LED indicator will turn **BLUE** to indicate that your device is charging.

If your device does not begin to charge, try repositioning your device on the charging pad. **You may need to remove your smartphone case if you are using one.** After your device is fully charged, disconnect and unplug the charging pad.

Legal Information

READ CAREFULLY AND KEEP THIS MANUAL

FCC Information
Caution: Any changes or modifications not expressly approved could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 and part 18 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
