RE: BenQ Corporation
FCC ID: JVPAWL300

Dear William:

After the review of your comments, we have made some modifications upon your advice; they are summarized as follows:

1. The label drawing with higher resolution is uploaded. Please be noted that the blank area of the label will be filled with the remarks shown below in order to comply with the compliance.
2. The regulatory information you specified are already shown on the remarks below the exhibit of label. The InPhoto and ExPhoto show only the prototype of the label. The label adhere on the final product will follow with the regulatory info as the remarks shown.
3. The Confidentiality Request is modified and uploaded. We'd added the block diagram as the part of the Requests of Confidentiality.
4. Thanks for your kindly reminding about the Part list. By the way, we won't draw the Confidentiality. Maybe next time we will do so.
5. The diagrams shown in the Antenna Spec. are the side-view of the EUT and demonstrating only the orientation of the EUT but not the appearance of antennas. For more info, please find more from the ExPhoto.
6. Regarding to the Restricted Bandedge, our testing engineer have set the wrong channel (The picture shown the Bandedge of the CH.13, 2.472GHz). The renew result is uploaded as a separate issue and please be kindly modified the report submitted
7. The missing part of the manual is added and uploaded with all the regulatory info. And it will also attached inside with the manual packed with the final product.

Should you have any questions or more information is needed, please don't hesitate to ask us.
Thank you.

Sincerely yours,
Eric Wong
Project Engineer
Training Research Co Ltd.
