ERGONOMIC WIRELESS RECHARGEABLE MOUSE

model 2604736

Thank you for selecting the ergonomic Vertical wireless mouse. The mouse change the grip way compared to the regular mouse.it reduces pain and discomfort for your wrist and arm.

Please previous to use charge at full the mouse for 30 minutes.

PACKAGE DETAILS

• 2.4GHz wireless optical mouse
• MINI USB receiver
• User manual

FEATURES

• Mouse dimensions: L100x W75xH77 *(millimeters)*
• 5-button
• 1,600 DPI
• Internal rechargeable battery

TECHNICAL PARAMETERS

• Wireless data transmission: 1Mbps
• 16 channels
• Engine: optical
• Distance: >8M
• Operating voltage: 3.7V
• Key life (clicks): 5 millions
• Working current: 8-10mA
• Response rate: 125Hz
• Maximum acceleration: 10G

SYSTEM REQUIREMENTS

• IBM or compatible computers
• Windows: 2000/Me/XP (x64)/Vista/7/8/10
• Mac OS x *(over V10.4)*
• One available USB port

PRODUCT FUNCTION DIAGRAM

1. Left button
2. Right button
3. Middle button
4. Back button
5. Front button

FUNCTIONS

• Adopted 2.4GHz wireless radio frequency technology.
• 2.4GHz wireless timely hopping technology.
• 2.4GHz working distance, wireless transmissions up to 2M.
• Multi-level sleeping function saves more power.
• Low current consumption design, making battery life last longer.
• Easy to plug and play.
• Mini receiver is easy to carry.
• Ergonomics design, comfortable to operate.

正面

ATTENTION

• In order to prolong battery life, please use mouse on the white or light color surfaces.
• When the mouse pointer moves a bit slow, please charge it.
• When mouse in sleeping state, you can wake it up pressing any button.
• Can work on any surface except glass.

FREQUENTLY ASKED QUESTIONS

If doesn't work, what can we do?
1. Check if the batteries positive and negative electrodes are corrected installed.
2. Check if the USB receiver is settled firmly.

When the mouse moves slowly or malfunction, what can we do?
1. Increasing the distance between mouse and other computer equipment.

2. Increase the distance or turn off other wireless devices such microwaves, wireless home phones, etc. those may affect the transmission and extend the mouse's response time.

3. Metal surfaces, like copper, iron, aluminum, will cause batter to the transmission, and extend the response time of the mouse.

WARNING

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.These limits are designed to provide reasonable protection against harmful interference in a residential installation.This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help

NOTE: This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

RF exposure:
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
