Wi-Fi Functionality Statement

Dear Dan,

The TPD3A portable transceiver Schematics, Parts List and Internal Photo information, submitted as exhibits, show that this model has Wi-Fi functionality available as a part of its design.

Tait Limited advises that the Wi-Fi functionality has not been implemented at this first stage of certification, and has not been tested.

In the future, when we are ready to implement the Wi-Fi feature, we will add the functionality by Class 2 Permissive Change / Reassessment exercises.

Yours sincerely,

A handwritten signature in dark ink, appearing to read "Des Fox", with a stylized flourish at the end.
