Quick Start Guide

Download and Install the App

1 You can Scan the appropriate QR code below and install the App.

iOS App

Android App

2 Or you can search “***” (name of the App) in Apple store or Google Play

Register and Login

When you open the App, it will guide you through creating an account and a login from the home screen.

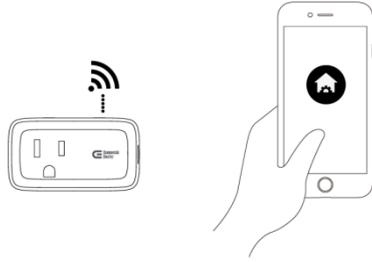

Add the Plug

- Connect your smartphone to a 2.4GHz WIFI network.
- Insert the Smart Plug into a grounded wall socket, the LED indicator blink slowly in green. If not, press power key for 5s until the LED indicator blink slowly in green
- Follow the guide in app to connect the smart plug to WIFI router. You will find SSID SmartPlug-xxxx’ during the connecting process. The number of xxxx is the last 4 number of MAC which marked on the plug.

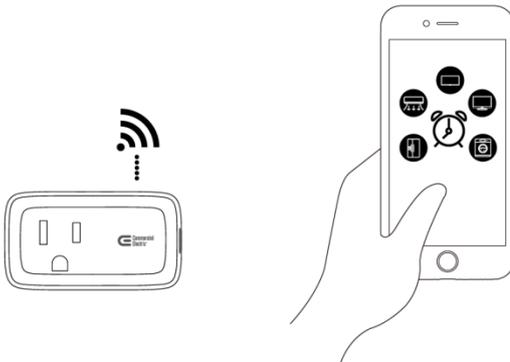

Operation

Remote Control: Turn your electronic device on and off from anywhere using the mobile App.

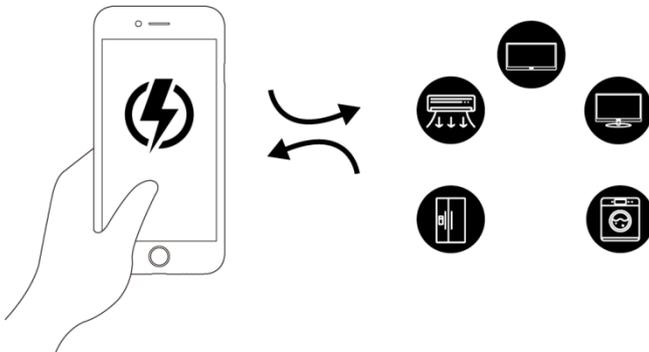

Timer: The Smart Plug has a control setting that can be set like a timer and will automatically turn off once it reaches the programmed time.

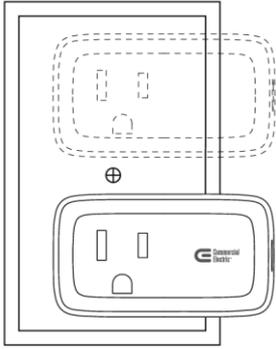

Schedule: Set specific times for your device to turn on/off. When the Smart Plug is used with a lamp, for example, you can program a schedule or control the on/off function from anywhere, with your smart device.

Energy Monitor: Measures the energy consumption of the connected device.

Flexibility: The slim design fits a standard wall outlet and leaves the second outlet free.

Troubleshooting

- Q: What devices can be controlled with the Smart Plug?

A: You can control lights, fans, humidifiers, portable heaters, and any small appliances in accordance with the Smart Plug's specifications.

- Q: What happens if the Smart Plug configuration process fails and the LED indicator always blinks green?

A: Check for interference or relocate the Smart Plug to another location within the signal range. Make sure that you connect the Smart Plug to the 2.4GHz network.

- Q: How does the Smart Plug get restored to factory settings?

A: Press and hold the power key for 5 seconds or until the LED blinks green, slowly.

Compliance Information

FCC ID: 2AB2Q7HPLWA0

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Caution:

Changes or modifications not expressly approved by the part responsible for compliance could void the user's authority to operate the equipment.

FCC Statement:

"This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can

radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warranty

1 YEAR LIMITED WARRANTY

This product is guaranteed to be free of defects in materials and workmanship for 1 year from the date of purchase.

Guarantee does not include normal wear and tear, bulbs or batteries.
