FCC ID: M4Y-XI-300

Dear Sir,

This is to confirm and explain the modification of our product submitted to apply for FCC Class II Permissive Change.

Due to the reason of our client requested different type of antenna to be used with their product (access point), we just changed the original patch antenna to dipole antenna. And after we re-investigated the all requirements of FCC rules, we found the result was still complying with the limitation.

Please kindly accept this Class II permissive Change. If you have any further questions about this modification, please contact us. Thank you in advance.

Best regards,

Pichun Had
