

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1**

**EUT Housing and Board
View 2**

EUT Housing and Board View 3	 A photograph showing the internal components of a device housed in a black plastic casing. The components include a green printed circuit board (PCB) with various electronic components, a black battery, and a black cable with a gold-colored connector. A black ruler is placed horizontally below the device, showing measurements in millimeters. The background is a blue textured surface.
Solder Board-Component View 1	 A photograph showing a blue rectangular component, likely a battery, with two wires (red and black) soldered to it. The component is placed on a blue textured surface. A black ruler is placed horizontally below the component, showing measurements in millimeters. The background is a blue textured surface.

Solder Board-Component View 2	 A photograph of a green printed circuit board (PCB) component, labeled 'PCD798E V1.4', placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component features various electronic components, including a large silver capacitor labeled '222', several resistors, and integrated circuits. Labels on the board include 'VIN+', 'VIN-', 'B+', and 'B-'. The component is oriented horizontally.
Solder Board-Component View 3	15  A photograph of a green printed circuit board (PCB) component, labeled 'PCD798E V1.4', placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component features various electronic components, including a large silver capacitor labeled '222', several resistors, and integrated circuits. Labels on the board include 'VIN+', 'VIN-', 'B+', and 'B-'. The component is oriented horizontally.

Solder Board-Component View 4	 A photograph of a black printed circuit board (PCB) with various electronic components, including a large green integrated circuit (IC) and several smaller components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The board has several circular holes and a rectangular cutout.
Solder Board-Component View 5	 A photograph of a black printed circuit board (PCB) with various electronic components, including a large green integrated circuit (IC) and several smaller components. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters (mm) and centimeters (cm). The board has several circular holes and a rectangular cutout. The text "LOCKLY" is visible on the board.

Solder Board-Component View 6	 A photograph of a green printed circuit board (PCB) component, labeled '220413', placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component features various electronic components, including a large silver heat sink, a white connector, and several small surface-mount components.
Solder Board-Component View 7	 A photograph of a green printed circuit board (PCB) component, labeled '220413', placed on a blue textured surface. A black ruler with white markings is positioned vertically to the left of the component, showing measurements from 0 to 100 mm. The component features various electronic components, including a large silver heat sink, a white connector, and several small surface-mount components.

Solder Board-Component View 8	 A photograph of a green printed circuit board (PCB) populated with various electronic components, including integrated circuits, capacitors, and connectors. The board is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the board's width spanning approximately 100 mm and its length around 60 mm.
Solder Board-Component View 9	 A photograph of a black printed circuit board (PCB) with several gold-colored circular solder pads and a small component mounted on it. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler indicates the board's dimensions, which are approximately 100 mm wide and 60 mm long.

Solder Board-Component View 10	 A photograph of a black printed circuit board (PCB) component, labeled 'PCB10000-0200-00000' and '20120410'. The board is populated with various electronic components, including a central integrated circuit, several capacitors, and connectors. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.
Solder Board-Component View 11	 A photograph of a green printed circuit board (PCB) component, labeled 'SSV003_PCB' and '2012 04 10'. The board is populated with various electronic components, including a central integrated circuit, several capacitors, and connectors. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows measurements from 0 to 100 mm.

Solder Board-Component View 12	 A photograph of a small, green, irregularly shaped printed circuit board (PCB) component. The component features a central circular silver-colored pad, several smaller rectangular pads, and a small white triangular marking. It is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately from 10 mm to 40 mm.
Solder Board-Component View 13	 A photograph of a small, circular printed circuit board (PCB) component. The component is dark in color and features a central square pad, a small white rectangular marking, and various other small components. It is positioned on a blue textured surface next to a black ruler with white markings. The ruler shows measurements in millimeters, with the component spanning approximately from 10 mm to 20 mm.
