PRODUCT SPECS:

- Power: 9W
- Voltage: 120V
- Lumen: 800LM
- Lifespan: >15000H
- Frequency: 60Hz
- Color Temp: 5000K - RGB
- Control Method: App
- BT ID: D056376
- FCC ID: 2AANZ9WBV

CARE AND MAINTENANCE

- Do not expose the bulb to liquid, moisture, or humidity to avoid damage to the product's internal circuitry.
- Do not use abrasive cleaning solvents to clean the unit.
- Do not expose the bulb to extremely high or low temperatures as this will shorten the life of the electronic device and/or distort certain plastic parts.
- Do not dispose of the bulb in fire as they may explode or combust.
- Do not expose the bulb to contact with sharp objects as this will cause scratches and damage.
- Do not let the bulb fall from high places, as doing so may damage the internal circuitry.
- Do not attempt to disassemble the bulb.

In the event that the bulb does not function properly, return it to the store where it was purchased.

DOWNLOAD & INSTALL THE APP

Scan the QR code below or search "Tuya" or "Smart Life" in the Apple App store or Google Play

LOGIN

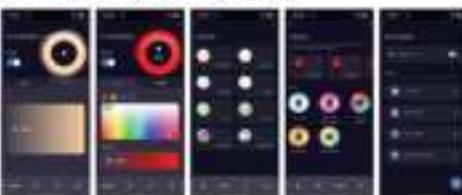

1. Select your country, then log in with your email and tap "GET" to receive a verification code. Enter your verification then tap "LOGIN"

FCC Statement

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Please note that changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC INSTRUCTIONS FOR A CLASS B DIGITAL DEVICE OR PERIPHERAL

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
