Adaper	1
User manual	1

Specifications

Length	2*5m
Color	Dreamcolor
Control method	Bluetooth and WiFi
Power supply	Adapter 12V/4A
Working temperature	-20°C-45°C

Instructions

1. Installation

- Take out the reel and straighten the LED strip to check the appearance of the strip light and that all accessories are in. Then power the product to test if it's on properly.
- Clean the position where the lamp strip is to be attached, and wipe off the dust or dirt, which would affect the adhesion properties. Besides, the surface must be flat and clean. Otherwise the product will fall off easily.
- The 3M double-sided adhesive tape is attached to the back of the LED light strip. When installing, you can directly tear off the plastic sheet on the surface of the 3M adhesive tape, then fix the LED light strip in the place where you want and press it with force.

d. Since the strip itself has a weight and it is also subject to the tension of the cord, it is recommended to fix the strip with the clips on each segment.

e. After installation, please plug in the power, the strip light could be controlled via the controller or APP.

2. Control method

ON/OFF: Short press it to control the light to turn on or off.

Color mode: Short press it to change the lighting color.

Brightness/ Music mode: Short press it to adjust the lighting color and turn on the music mode, long press it to adjust the brightness.

3. App usage

a. Download APP

Search and download the APP "Govee Home" in APP store (IOS) or Google Play (Android).

b. Add the device

Open the APP, when enter home page, click the icon "+" in the top right corner to enter Govee device list. Select H6117 follow the APP prompt to add the device.

4. Alexa usage

Link with Alexa

After pairing, the device will display in home page. Click the device name and enter Device detail page, click the Settings icon at the top right corner. Choose "Voice control user guide" and follow the steps to link with Alexa.

Warning

1. Please pay attention to anti-static during the installation and use. Do not use sharp objects to touch the product, and avoid contact with strong chemicals such as strong acid and alkali.
2. When installing, the bend should be avoided just in the position of the LED components, so as not to damage the product.
3. There is no hidden nail or metal conductive object in the contact part between the lamp and the wall. If there is any, it is necessary to remove the conductive object in advance to prevent unnecessary short-circuit of the light bar.

Customer Service

We are looking forward to provide the perfect services for you, and will pay attention to your feedback.
Should you have any question, please give me the letter via support@govee.com

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- 1.Reorient or relocate the receiving antenna.
- 2.Increase the separation between the equipment and receiver.
- 3.Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- 4.Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
