FCC ID: VUI-RCSCON

### B. Access to the required information on the e-label

1. Users must be able to access the information in no more than three steps in a device's menu. The actual steps are:

[Main menu -> Settings -> Legal Notes -> png-file is visible]

2. The information is stored on the device, no special accessories or supplemental plug-ins (e.g., a SIM/USIM card) are required to access the information.

[No need special access codes or accessories in a device's menu]

3. Users are provided specific instructions on how to access the information.

[End user can find the specific instructions in the User's manual.]

4. The equipment authorization application for the device must clearly include the instructions for accessing information as part of the exhibit showing the label information.

[User can access the E-Label screen on rear seat remote by the following instruction:  
Main menu -> Settings -> Legal Notes -> png-file is visible]

### C. Labeling for Importation and Purchasing

# PEGATRON CORPORATION

5F., No.76, Ligong St., Beitou District, Taipei City 112, Taiwan

1. Products utilizing e-labels are required to have a physical label on the product at the time of importation, marketing and sales. For devices imported in bulk and not packaged individually, a removable adhesive label or, for devices in protective bags, a label on the bags is acceptable for this purpose. Any removable label shall be of a type intended to survive normal shipping and handling and must only be removed by the customer after purchase. For devices imported already in individual packages ready for sale, the information may alternatively be provided on the package. It shall contain:

1. The FCC ID and/or the DoC logo (if applicable); and
2. Any other information required by specific rule to be provided on the surface of the product unless such information is permitted to be included in the User's manual or other packaging inserts.

[End user can find the specific instructions in the User's manual.]

## D. Other considerations

1. The above information must be programmed by the responsible party and the information must be secured in such a manner that third-parties cannot modify it.

[The regulatory information is programmed in a secured manner. End-Users or third parties cannot modify the regulatory information page on the device, and the end user has no access to parameter settings]

2. All the applicable regulatory information required on the packaging or user instructions must be provided according to the rules even if it is displayed electronically. For example, hearing aid compatibility (HAC) ratings for the phones as specified in 47 C.F.R. § 20.19.

[All relevant information has been placed in the user manual]

3. E-label displays may include regulatory information required to be placed in the User's Manual or on the packaging as required by the rules. The following considerations must be taken into account for such information distribution.

- a. If the primary user manual or user guide is provided by other electronic media (e.g., CD, or online access) then as an option this information can also be provided as part of the e-label

[All relevant information has been placed in the user manual]

- b. The e-label format must clearly differentiate between the information required to be on the surface of the product and the information required for the User's Manual or on the packaging.

[Yes, The e-label format has clearly differentiate between the information required to be on the surface of the product and the information required for the User's Manual or on the packaging.]

4. Products subject to both certification and Declaration of Conformity or certification and Verification can use the e-label guidance by displaying both the FCC ID and an image of the FCC DoC Logo, or FCC ID and product identification as required by the rules.

[E-label has been shows the both FCC ID and image of the FCC DoC logo.]
