

WIRELESS MUSICAL 3D SLEEP EYE MASK

built-in 20 soothing sounds and relaxing music
with 30-240 minutes timer setting function

Thank you for purchasing this Wireless Musical Sleep Eye Mask. Please read these instructions carefully before use.

Intended Use

- The Wireless Musical Sleep Eye Mask is suitable for Bluetooth compatible device like mobile phones. Users can listen to music and conduct phone calls hands free.
- The product is for personal use only and is not intended for commercial applications.

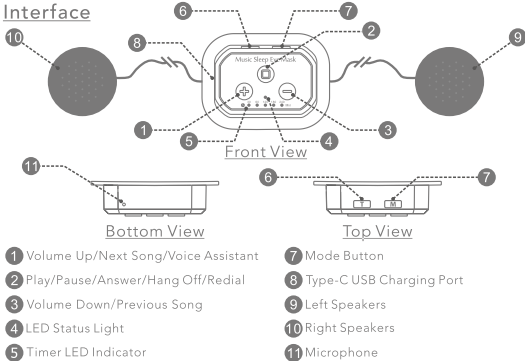

Dangers of Injury

- Keep the product and the package away from children and animals, as they can swallow small parts.
- Supervise children using the product. It is not a toy.
- Always maintain a gap of at least 10 cm between the headphones and a pacemaker or an implantable cardioverter defibrillator (ICD) as the product generates magnetic fields.

Dangers of Fire and Explosion

- Caution! Do not expose the headphones to any high temperatures over 70°C (like hair dryer, heating, prolonged sunlight etc.,) The battery inside of the headphones may overheat and explode as a result.
 - Only charge up the headphones in an ambient temperature of from 10°C to 40°C.
 - Do not crush or pierce the battery! Do not expose the battery to high pressure, as this may cause an internal short-circuit and overheating.
 - The headphones and the battery must not be taken apart, thrown into a fire, immersed in liquids or short circuited.
- If the headphones are not used for a prolonged period of time, recharge it regularly (roughly every 3 months).

Interface

How to Use Bluetooth

Pair with a Bluetooth Device

Before you can use this product through Bluetooth, it needs to be paired with your Bluetooth enabled device.

1. Long Press the  button for 3 seconds until the LED Status Light [4] starts to flash red and blue alternately.
2. Switch on Bluetooth on your mobile phone or other Bluetooth enabled device.
3. Search and select "Musical Eye Mask" from the list of found devices.
4. If a pass code is asked, enter "0000".
5. After paired successfully, only the blue light flashes slowly.
6. When the product powered on next time, it will automatically search for and attempt to reconnect with the last paired device.

Pair with a New Bluetooth Device

Follow below steps to pair with a new Bluetooth enabled device:

1. Make sure the product is disconnected from the previous paired device.
 2. Follow "How to Pair with a Bluetooth Device" instructions from step 1.
- NOTE: To save power, the product will switch off automatically if there's no Bluetooth connection for 3 minutes.

Playing Music

1. Play/Pause: Short Press the  button to play or pause music.
 2. Adjust volume: Short Press the  button or  button to increase or decrease volume.
 3. Music selection: Long Press the  button or  button to select next songs or previous songs.
- NOTE: Play/Pause and Music Selection functions will only work on devices which support Bluetooth profile AVRCP.

WARNING: Avoid excessive volumes, particularly over extended periods or in the case of frequent use. Listening to music at maximum volume for prolonged periods can lead to hearing damage. It's best to avoid extreme volume when using this product, especially for extended periods. For your own safety, please be aware of your surroundings when using this product.

FCC Warning Statement: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

FCC Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
