Clock settings

Year/month/day/hour/minute can be set.

Phonelink (CarPlay & Android Auto & Mirrorlink)

When connected to the USB data cable, you can project the phone screen to the car screen.

1. iPhone enter Apple CarPlay mode.
   Support: ①wired CarPlay; ②wireless CarPlay.
2. iPhone enter MirrorLink mode (Wired only).
3. The mode entered by default when an iPhone is connected.
   "CarPlay / Mirrorlink / OFF" is selected.
4. Android phone enter Android Auto mode.
   Support: ①wired Android Auto; ②wireless Android Auto.
5. Android phone enter MirrorLink mode (Wired only).
6. The mode entered by default when an Android Phone is connected. "Android Auto / Mirrorlink / OFF" is selected.

Drop-down menu bar

Apple CarPlay (wired & wireless)

Connect with
Data cable

Connect with
BT+WiFi

1. **Wired connection:** Just connect the USB data cable, and then it will automatically enter the CarPlay interface.
2. **Wireless connection:** first turn on the bluetooth and wifi functions of the mobile phone, and then connect the bluetooth. Then it will automatically enter the CarPlay interface. (Note: The signal is transmitted through wifi at this time, so even if the Bluetooth function is turned off, it will be transmitted normally. When forgetting the Bluetooth device, exit the CarPlay interface.)

Android Auto (wired & wireless)

This feature is not supported in all countries, and "Google Play" services need to be available locally.

1. Need to download and install "Android Auto" software in "Google Play".
2. A mobile phone with Android 6.0 or higher must be used. Must use a valid data cable connection.
Connect with
Data cable

Connect with
BT+WiFi

1. **Wired connection:** Just connect the USB data cable, and then it will automatically enter the Android Auto interface.
2. **Wireless connection:** First turn on the Bluetooth and wifi functions of the mobile phone, and then connect the Bluetooth. Then it will automatically enter the Android Auto interface. (Note: The signal is transmitted through wifi at this time, so even if the Bluetooth function is turned off, it will be transmitted normally. When forgetting the Bluetooth device, exit the Android Auto interface.)
Mirrorlink (iPhone)

When the device is plugged into the iPhone, the content on the phone's screen is projected onto the car's screen, and the sound is transmitted in sync.

Touch input
NO

You can't control your iphone here.

Mirrorlink (Android)

When using an Android device, after connecting the USB data cable, you will be prompted to install the Mirrorlink software. After installation, Plug the data cable again, it will enter the screen mirroring mode. And it can be operated on both the player screen and the phone screen.
Only the image transfer is successful at this time. The sound can only be transmitted after the BT connection is successful.

Touch input
YES

Mirrorlink
APK

You can also control your android phone here.

SYSTEM SETTINGS

Language settings:

Language settings for multiple countries.

SPECIFICATION

Power Supply Voltage   12V~36V_2A DC, Negative Ground

COMMON PROBLEMS AND SIMPLE TROUBLESHOOTING

1) Car audio with BT but it can't work

-- Check the phone to see if you can search for the unit code

Operation steps: turn on the unit, use the phone BT search device, then click the connection, after connecting, you can answer the phone or Bluetooth to play the song.

2) USB flash disk can not be played, the card slot does not enter the card?

-- USB flash disk can not play:

Format the USB flash disk, and the file system is selected as: FAT32, re-download on or two songs and try again. If it still doesn't work, please replace the USB flash drive.
--- The card slot does not enter the card:
Check whether the memory card is inserted, the plug is broken.

3) There is no sound right after installation

The audio output of this machine is to broadcast the sound by transmitting FM signal to the radio of the original car. So it is necessary to check whether the original car radio receives the frequency of FM transmission.

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiateradio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

• Reorient or relocate the receiving antenna.

• Increase the separation between the equipment and receiver.

• Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

• Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
