RE: Nokia Mobile Phones, Inc.

FCC ID: GMLNPD-4AW

After a review of the submitted information, I have a few comments on the above referenced Application.

SAR Report:

- 1) The Z-axis plots provided in the report only confirm a 3-4 cm liquid depth. The FCC likes to be able to confirm that the 15 cm liquid depth was present by supporting photographs or Z-axis data which shows this depth. This was not provided for the actual test. Please confirm that the liquid depth was at least 15 cm.

Timothy R. Johnson
Examining Engineer
