## How to Wear

Identify the Left and Right of the headset by the volume Control touchpad and LED indicator. They should be on the Right Side. Wear the headset by wrapping it around your head and letting it rest on your ears.

### Power On

Press and hold the **power button** for 2 seconds until you hear "power on". Release the power button when the indicator light is turned on.

### Power Off

Press and hold the **power button** for 2 seconds until you hear "power off". Release the power button when the indicator light is turned off.

### Volume Control

The volume control touchpad is located on the right. Slide your finger up to increase the volume and slide down to decrease the volume; increase or decrease the sliding speed for larger adjustments.

Slide your finger upward to increase volume

Slide your finger downward to decrease volume

<b>Pairing</b>	When the headset is powered off, press and hold the power button for 5 seconds, listen for "power on" and a pairing tone. The indicator light will flash to indicate. It is in pairing mode. In your Bluetooth settings, search for "MOJO2" and tap to connect. Listen for an indicator sound to indicate successful pairing. The indicator light will be turned off after successful pairing.
<b>Unpair</b>	Choose "MOJO2" from your device's Bluetooth settings and select unpair. Wait for an indicator sound to indicate successful unpairing. After unpairing, the indicator light will flash to indicate it is ready to be paired with another device.
<b>Connect</b>	When the headset is powered on, it will automatically connect to the last connected device. You can also manually connect it to another device via Bluetooth settings. Once the headset is connected, the indicator light will be turned off. If connection is unsuccessful, the indicator light will keep on flashing.
<b>Disconnect</b>	In your Bluetooth settings, search for "MOJO2" and select to disconnect. Listen for an indicator sound to indicate successful disconnect.
<b>Reconnect automatically</b>	In the connected state, if the distance between the headset and the connected device exceeds the Bluetooth communication range, the connection will be disconnected. The headset will enter into pairing mode with the indicator light flashing. If the distance between the headset and the connected device returns to the Bluetooth communication range within 10 minutes, the headset will automatically be connected again. If the headset is not reconnected within 10 minutes, the headset will shut down automatically.

## Multi-function button & volume control touchpad

Play/Pause Music	Press 1x
Skip to next track	Press 2x
Back to previous track	Press 3x
Answer a call	Press 1x to answer

## Specifications

Model: MOJO2	Speaker: Bone Conduction Speaker
Frequency Response: 2.4GHz	Bluetooth Range: 10m
Bluetooth Version: BT5.2	Protocol: A2DP1.3 (HFP) AVRCP 1.5
Battery: Lithium Ion Battery	Battery: 130mAh
Charging: 5V  500mA	Charging Time: <=80min
Playtime: 8 hours	Standby Time: 130 hours
Microphone Sensitivity: -38dB	Waterproof: IP67
Weight: 26g	Warranty: 1 Year

## Charging

Connect the USB-A end of the charging cable to a 5V power adapter. To charge the headset, attach the magnetic charging head to the charging port of the headset.

The indicator light will flash during the charging process. When the battery is low, the light will flash slowly; when it is charged to medium battery capacity, it will flash at a normal speed. After charging is completed, the indicator light will stay on for 3 minutes, then turn off.

## Restore to factory settings

Turn on the power, press and hold the power button for 8 seconds, the headset will be restored to factory settings. All pairing information will be deleted, and it will enter into pairing mode after automatic restart.

\*Please charge the headset before using it for the first time. Make sure the charging port is dry.

## Storage and Maintenance

The headset should be stored in a cool and dry place. It should be used at an ambient temperature between 0°C(32°F) and 55°C(131°F), and charged at an ambient temperature between 0°C and 40°C. Working in extremely cold, hot or humid environments may shorten the battery life.

When left unused for a long time, please recharge the headset before use.

The headset can be cleaned regularly. Do not use high-pressure water to wash the microphone or immerse the product in water for an extended period of time. Doing so may damage the microphone or waterproof performance. If the charging port is wet, dry it with a soft dry cloth before charging.

## Important Safety Instructions

Use manufacturer-designated accessories and supplies only.

### Warning/Caution

- When not in use, keep the headset away from children and pets.  
This product contains lithium batteries which can be dangerous if swallowed. If swallowed, seek immediate medical attention.
- Do NOT use the headset at a high volume for extended periods of time.
  - To avoid hearing damage, use the headset at a moderate volume. Listening to music at high volume levels may damage your hearing and the sound may be distorted.
  - Please turn the volume down before placing the headset on your ears, then gradually turn the volume up to a comfortable listening level.
- For use of the headset during driving, use with caution and follow applicable laws regarding the use of mobile phones and headsets. Some jurisdictions impose specific limitations on the use of such products while driving. Do not use the headset for any other purposes while driving.

- For use of the headset during activities that require concentration, such as cycling, walking on or near roads, construction sites or railways, pay attention to your own safety and that of others. Follow relevant laws regarding the use of headphones.
- This product contains small parts which may be a choking hazard. It is not suitable for children under age 3.
- This product contains magnetic material. Consult your physician on whether this will affect your implanted medical device.
- Do not make unauthorized alterations to the product.
- Use this product with power sources approved by relevant authorities and meet local regulatory requirements (i.e. UL, CSA, VDE, CCC).
- Do NOT expose the product to excessive heat (i.e. Avoid direct sunlight and keep away from fire).
- Do not expose the product to high temperature, smoke, or fume. Doing so may cause it to catch on fire.
- Do not charge the headset during thunder and lightning.
- Do not throw the headset into fire. Doing so may cause the battery to explode under high temperature.

- Do not expose this product to hot temperature, smoke, or fume lest it may catch fire.
- Do not charge this product during thunder and lightning.
- Do not throw this product into fire lest the battery may explode when overheated.

## Accessories

### Earplugs

For a more focused listening experience in noisy environments, please use the earplugs including in the package to block out any background noises. Roll the earplugs to fit into your ears.

### Charging cable

Please only use the MOJO2 charging cable for charging. If the charging cable is damaged, please replace it in time. Please follow 5V-500mA specifications for the power adapter.

### Storage Bag

When not in use, keep the headset in the storage bag to avoid damages.

#### FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

#### FCC Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

#### Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
