LED TOWER SPEAKER

BASS BOOSTING SOUND

BY-AU-BS-150-BK

Notice:

Please read user manual carefully and keep it for your records.

Package includes:

- 1- LED Tower Bluetooth® Speaker
- 1- Micro USB Cable
- 1- Instruction Manual

Warnings:

- Do not let small children play this product - Do not expose the speaker to liquid, moisture or humidity to avoid the product's internal circuit being affected.
- Do not use abrasive cleaning solvents to clean the speaker. - Store the speaker out of direct sunlight and extreme temperatures (above 45°C/113°F or below -10°C/- 14°F), as this may shorten the battery life, affect the operation or degrade the performance of your speaker.
- Do not dispose of the speaker in a fire as it might result in an explosion. - Do not expose the speaker to sharp objects as this will cause scratches and damage.
- Do not drop the speaker. This may cause damage to the internal circuitry.
- Do not attempt to disassemble the speaker. This may cause damage to the internal circuitry.
- If the speaker is left for long period without use, charge once per month to avoid the overconsumption of the battery.
- This appliance is for indoor use only. Please do not use or store the unit in high temperature or hazardous locations. Please do not submerge the unit into water, as this will ruin the speaker.
- The unit comes with a rechargeable battery, so please do not throw or put it in a fire to avoid explosion.
- The warranty for this product is invalidated if the product has been tampered, repaired or modified in any way.

POWER ON / OFF

POWER ON: Pull the ON/OFF key and the LED lights light up to indicate that the device is turned on.

POWER OFF: Pull ON/OFF key, the LED light turn off, indicating that the device is off.

FM Radio

Press the **M (MODE)** button to enter "FM Radio" function. Press the **▶||** button to search FM channel automatically. This operation will scan all FM stations and Pre-record them to the memory. The scan procedure will take several minutes to complete and should not be interrupted. Short press **◀◀/-** and **+>>▶** to Prev. channel and Next channel.

USB

Insert USB flash drive into the USB flash drive slot for music playback.

TF Card

Insert Micro SD memory card into the memory card slot for music playback. Press **▶||** to Play/Pause, short time press **◀◀/-** and **+>>▶** to Prev. and Next, press and hold the **◀◀/-** and **+>>▶** buttons to decrease and increase the volume.

AUX-IN

Using the audio cable, plug it into the AUX-IN Port. Plug the other end into the AUX output or line out port of the device. Press **M (MODE)** to switch to AUX mode. While in AUX-IN mode the music is controlled by the source device.

BLUETOOTH

Turn on the speaker, Once powered on it is already in Bluetooth mode. Turn on your device's Bluetooth and then scan for new devices and look for **BY-BS-150**. Once found, pair with it. After pairing, devices can connect with each other automatically.

Use the "Mode" button to select the BT/Memory Card/FM function.

M (MODE)

Use the **M (MODE)** button to select the BT/Memory Card/FM function.

CHARGING

Speaker comes with a built-in rechargeable battery. Prior to using it for the first time, it is recommended to completely charge the battery for 2-3 hours.

Connect the provided USB cable to a compatible AC-charger, computer or laptop USB port. The red LED will be illuminated while charging. It takes approximately 2-3 hours to completely charge the battery. The indicator LED light will be lit while the device is charging. Do not use the speaker while it is charging. Charge the speaker with your phone charger for no more than 5 hours.

FCC Statement

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions [1] this device may not cause harmful interference, and [2] this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
