Subject: Compliance Statement in Car manual

FCC ID:NI4TMLF-4

IC:2842A-TMLF4

Dear Sirs,

Our products with the above FCC ID codes are low-frequency transmitters. The products will have been installed in cars before they are placed into the market.

We hereby assure that the following caution statement as per CFR47, Part 15, Paragraph 15.21 is included in the owner's manuals of the cars:

The title "CAUTION TO USER" or "FCC WARNING:" "NOTE:" or relevant title and "Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment."

In addition, we also assure that the following statement is also included in the manuals as per CFR 47, Part 15, Paragraph 15.19(a)(3):

This device complies with Part 15 of the FCC Rules and with RSS-210 of Industry Canada. Operation is subject to the following two conditions:

- 1) This device may not cause harmful interference.
- 2) This device must accept any interference received including interference that may cause undesired operation.

Yours sincerely,

Tomoaki Katayama, Toyota Motor Corporation

Subject: RE: Labelling of devices installed in vehicles

Question:

Is it acceptable for automated systems that are installed internally to vehicles, not visible to the end user, to place the compliance statement in the vehicle's user manual and not on the device itself?

Answer:

Yes, the compliance statements can be placed within the User's Manual. However, some reference (such as models numbers) must be incorporated to ensure that the proper compliance statement/User's Manual is used for the installed device.
