

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

EUT Housing and Board View 1	 A photograph showing the EUT housing and board assembly. The white plastic housing is on the left, and the green printed circuit board (PCB) is on the right. The PCB has a USB connector at the bottom and various components, including a chip labeled "TR354A" and "20210105". A black ruler with white markings is placed vertically to the left of the components, showing measurements in millimeters.
Solder Board-Component View 1	 A close-up photograph of the solder board component. The green PCB is shown with various components, including a chip labeled "TR354A" and "20210105". A black ruler with white markings is placed vertically to the left of the component, showing measurements in millimeters.

Solder Board-Component View 4	 A photograph showing the solder board component view of the 315MHz Antenna. The green PCB is placed on a blue textured surface next to a black ruler with white markings. The PCB features a USB connector on the right and various components labeled TP1 through TP12. The text 'SCINAN' and 'www.scindn.com' are visible on the board. The ruler shows measurements in millimeters, with the PCB spanning approximately 100mm in length.
Antenna View	 A photograph showing the antenna view of the 315MHz Antenna. The green PCB is placed on a blue textured surface next to a black ruler with white markings. A red box labeled '315MHz Antenna' is positioned above the PCB, with a red line pointing to the antenna structure. The PCB features a USB connector on the right and various components labeled TP1 through TP12. The text 'SCINAN' and 'www.scindn.com' are visible on the board. The ruler shows measurements in millimeters, with the PCB spanning approximately 100mm in length.
