Subject: Re: Revised test report - Digital Security Controls FCC ID: F5303RF5108

Hi Barry:

See attached revised test report which also contains the calibration dates for the test equipment.

Thanks and have a good weekend.

Ruby

Hi Ruby,

Our reviewers have identified these issues:

1. It appears the radiated measurements were taken without all of the ports being populated with the appropriate cables. Please supply a revised test report.
2. Please provide the calibration dates for the test equipment.

Best regards

Barry C. Quinlan
