

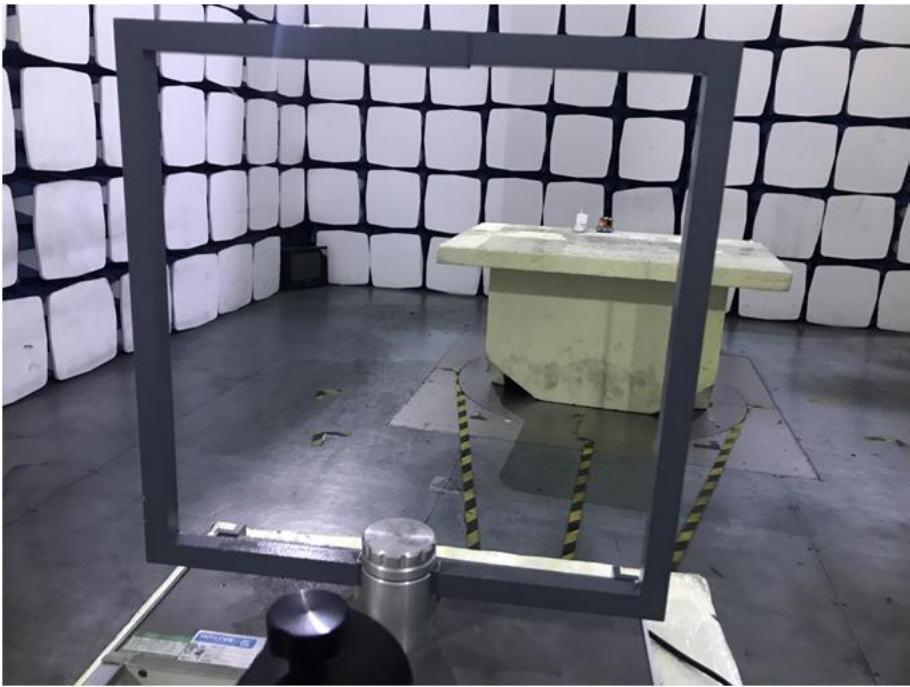

EXHIBIT 4 - TEST SETUP PHOTOGRAPHS

Conducted Emission Test Setup	 A photograph showing the conducted emission test setup. On the left, a piece of electronic equipment is on a wooden bench. A power strip with multiple outlets is mounted on the wall behind the bench. On the floor, a large, flat, rectangular metal plate is connected to the power strip. To the right, another wooden bench holds a small electronic device and a power adapter.
Radiation Emission View (Below 30MHz)	 A photograph of a radiation emission test chamber. The chamber is a large, rectangular metal frame. Inside, a small electronic device is placed on a wooden bench. The walls of the chamber are lined with white, square-shaped absorbers. The floor is a dark, polished surface. A yellow and black striped caution tape is visible on the floor.
