Step 4 Press "Chime Pairing" button, the device will be connected about 2s.

Step 5 Select the ringtone, adjust the volume.

Step 6 Complete the configuration, the blue light is on.

Specifications

Sensor type	1/2.9" CMOS
Min. brightness	Color 0.1Lux@F2.0
	Black and white 0.01Lux@F2.0
Resolution	2 Mega pixels
Lens	3.2 mm F2.0
Shutter	1/15-1/10,000 per second
Infrared	High power LED with ICR
Infrared distance	5 meters
FOV	130°
Video compression	H.264
Bit rate	32Kbps - 2Mbps
Max resolution	1920 x 1080
Framerate	1-25 per second
Picture settings	Support HD/SD; support flip
Storage	SD card (Max 256GB)
Audio	Two-way audio
Protocols	HTTP, DHCP, DNS
WiFi standard	IEEE802.11b/g/n
Frequency	2.4 GHz;
WiFi encryption	WPA-PSK/WPA2-PSK
Security	AES128
Working temperature	-20°C~50°C
Power	DC5V,1A
Consumption	4.5W MAX
Size(mm)	56 x 40 x 135
Battery	5200mAh
Standby consumption	600μA (average)
Work consumption	192mA (IR off)
Standby time	10 months
Working time	3 months (10 times wake up per day)
PIR Detection Rangle	7m (Max.)
PIR Detection Angle	100°

Hereby, Laxihub, declares that the radio equipment type 'BellCam' is in compliance with the Directive 2014/53/EU

The full test of the EU declaration of conformity is available at the following Internet address:
www.laxihub.com

FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

This device complies with FCC radiation exposure limits set forth for an uncontrolled environment and it also complies with Part 15 of the FCC RF Rules. This equipment must be installed and operated in accordance with provided instructions and the antenna(s) used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located or operating in conjunction with any other antenna or transmitter. End-users and installers must be provide with antenna installation instructions and consider removing the no-collocation statement.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Caution!

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
