Product introduction

This product uses the latest 5.0 Bluetooth chip imported from the UK, and uses Bluetooth technology, stereo and strong. Ultra-strong signal transmission, ultra-low power consumption, and support for all Bluetooth devices, the automatic answering function of incoming calls, no longer need to answer calls manually, safe and fast. Use 30 strong magnetic high-quality speakers.

Power on/off:

Press the power-on button "⏻" for two to three seconds to start the machine. At this time, the indicator light will flash alternately red and blue, and it is in the power-on state. When you turn off the machine, you can press the power on symbol key "⏻" for two to three seconds. There will be a prompt tone and the light will not light up after the machine is turned off.

How to switch between Chinese and English voice:

After power-on, the indicator light flashes red and blue alternately. Do not connect with the mobile phone at this time. Press the "⏻" power-on button twice in succession, and switch between Chinese and English voice.

Connect two mobile phones at the same time:

After the Bluetooth headset is turned on, connect with the mobile phone A first, then turn off the Bluetooth of the mobile phone A, and then turn on the Bluetooth of the mobile phone B, and then connect two mobile phones at the same time.

one

How to connect with mobile phone:

After power-on, the indicator light flashes red and blue alternately. At this time, turn on the Bluetooth device on the mobile phone, search for the Bluetooth device on the mobile phone, and find the "BT35" point to connect for a few seconds. Once connected, the next time you use it, the phone Bluetooth and Bluetooth headset will be automatically connected when both are turned on.

Volume up/down/song switching:

Multi-function knob, turn it forward to make the previous song, turn it backward to make the next song, turn it forward to make the volume decrease, and turn it backward to make the volume increase. Press the middle phone symbol "☎" to pause playback.

Switch between automatic answering and non-automatic answering

When the music pauses, press the "B" key for two seconds and hear a thud, which proves that it has been switched over.

Turn on the night atmosphere light effect

After the product is powered on, press the power button once to turn on the night atmosphere light. At this time, the atmosphere light will be on for a long time. Each press can switch the effect of different colors of the atmosphere light, a total of five color modes.

Answer the phone:

Incoming calls will be answered automatically or manually by pressing the telephone symbol "☎".

two
