Safety, Warranty & Regulatory Guide for Google Home Mini

This booklet provides important safety, regulatory, and warranty information that you should read before you start using your Google Home Mini. An online version of this document can be found at g.co/home/legal

Google Home Mini and your Family and Friends

If you make your Google Home Mini available for others to use, please be sure to let them know that their interactions may be stored by Google. More information about this is available at g.co/home/guests. In the link, you can also find information and tips about others being able to access information you make available to Google Home Mini.

WARNING: HEALTH AND SAFETY INFORMATION

Basic Safety: To avoid damaging your device, accessories or any connected devices, and to reduce the risk of personal injury, discomfort, property damage or other potential hazards, follow these precautions below and those found at g.co/home/legal

- Handle your Google Home Mini with care. You may damage the device if you disassemble, drop, bend, burn, crush or puncture your device. Using a damaged device may cause overheating or injury. Don't expose your Google Home Mini to liquids, which can cause a short circuit and overheating. If it gets wet, do not attempt to dry it using an external heat source.
- Be sure the power adapter and device are well ventilated when in use. Using damaged cables or power adapters, or using your device when moisture is present, can cause fire, electric shock, injury, or damage to the Google Home Mini or other property. When using the Google Home Mini, make sure the power adapter is plugged into a nearby socket and is easily accessible. This product is intended for use with a certified Limited Power Source (LPS) per IEC 60950-1 rated: 5 Volts DC, minimum 1.8 Amps. Only use your Google Home Mini with the included power adapter and cable, or compatible accessories available on the Google Store. Failure to use compatible accessories can cause fire, electric shock, injury, or damage to the device and the accessories. Compatible accessories are available on the Google Store and at Google authorized resellers (look for Google's "made for" badge).
- Maintain a distance of at least 20 cm from your body to be consistent with how the device is tested for compliance with European/US/Canadian RF exposure requirements.
- The Micro-USB port in the back of the device is a service-only/power-only port.

Regulatory information

Additional regulatory and environmental information can be found at g.co/home/legal

Manufacturer address:

Google Inc., 1600 Amphitheatre Parkway, Mountain View, CA 94043.

FCC and IC regulatory compliance

This device complies with Part 15 of the FCC Rules. This device complies with Innovation, Science and Economic Development Canada (ISED) license-exempt RSS standard(s). Operation is subject to the following two conditions:

1. This device may not cause harmful interference.
2. This device must accept any interference received, including interference that may cause undesired operation.

More details on the FCC and IC statements can be found at g.co/home/legal

EMC Compliance

(EMC) compliance under conditions that included the use of compliant peripheral devices and shielded cables between system components. It is important that you use compliant peripheral devices and shielded cables between system components to reduce the possibility of causing interference to radios, televisions, and other electronic devices.
