A photograph of a disassembled mobile phone, showing the internal components. The main board is green and populated with various electronic components, including a large silver battery, a SIM card slot, and several integrated circuits. The board is placed next to a black ruler with white markings, indicating its size. The ruler shows measurements in centimeters (0 to 100) and millimeters (0 to 10). The phone's casing is black and partially visible on the left. The background is a blue textured surface. The text "SHINWA" and "MADE IN JAPAN" are visible on the black casing. The main board has the text "K21324BN" and "50174585" printed on it. The battery has "B-2" and "A-2" markings. The SIM card slot has "5.5mm" and "A-2" markings.
