### Troubleshooting

Problem	Solution
The speaker doesn't connect to device	Speaker needs to be connected/re-paired to device
A tone is heard every few seconds	Speaker needs to be charged
Bluetooth connection distance cannot reach to 32ft.	Avoid operating the Bluetooth speaker in areas of strong electromagnetic interference, such as near induction cookers, large power fans, motors etc. Move the speaker closer to Bluetooth device. Fully charge the speaker and try again.
The speaker will not power on	Speaker needs to be charged
The speaker doesn't control track(s)/volume	Speaker needs to be in Bluetooth mode for full control
The speaker distorts at high volume	The devices' volume needs to be lowered

FCC Caution.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
