Solder Board-Component View 3	 A photograph of a small, curved electronic component, likely a USB-to-UART bridge, resting on a blue textured surface. The component is positioned between two black rulers. The ruler on the left is oriented vertically with markings from 0 to 100 mm. The ruler on the bottom is oriented horizontally with markings from 0 to 100 mm. The component has a gold-plated USB Type-A connector on one end and a small integrated circuit (IC) with various pins and markings on the other. The IC is labeled with '1-20201222' and '104-C121C4'. There are also some smaller markings like '104-C121C4' and '104-C121C4' on the component.

Battery Capacity: 600mAh

EUT Housing and Board View 1	 A photograph showing the top view of the EUT housing and its internal board. The housing is a light beige, rounded rectangular plastic shell. The internal board is visible, showing a circular component in the center. A black ruler is placed horizontally below the housing, with markings in millimeters and centimeters. The background is a blue textured surface.
EUT Housing and Board View 2	 A photograph showing the bottom view of the EUT housing and its internal board. The housing is a light beige, rounded rectangular plastic shell. The internal board is visible, showing various electronic components, including a large black chip and a white circular component. A black ruler is placed horizontally below the housing, with markings in millimeters and centimeters. The background is a blue textured surface.

Solder Board-Component View 3	 A photograph of a small, dark, rectangular electronic component with a USB connector on one end and several solder points on the other. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters and centimeters. The component is positioned horizontally, with the USB connector pointing towards the left.
Solder Board-Component View 4	 A photograph of the same electronic component from a different angle. The component is placed on the same blue textured surface next to the same black L-shaped ruler. The component is positioned horizontally, with the USB connector pointing towards the left. The ruler markings are visible, showing the component's size relative to the ruler.
