Dear Sir / Madam

Subject: **Class 2 Permissive Change Application**

This is an application for a Class 2 Permissive Change that will enable the addition of two data emission designators to the original Grant of Authorisation, CASTEL0057.

The T2010-K27 transceiver, used to create the submitted data test report, is identical to the T2030-K27 tested for the original grant in

- Basic frequency and stabilising circuitry (including clock and/or data rates)
- Frequency multiplication stages
- Basic modulator circuitry
- Maximum power
- Field strength ratings

The original Grant of Authorisation was obtained for an 11K0F3E voice frequency designator. We wish to add the following two data frequency designators to the original Grant of Authorisation.

<i>Data Type</i>	<i>Emission Designator</i>
2400 bps FFSK	6k0F2D
4800 bps QPSK	8k4F2D

A bank draft, serial K381634, from HSBC Bank USA for US\$50.00 as a submission fee is enclosed with the Form 159.

Yours sincerely

Des Fox
